### Professional Summary

I excel as a proficient software engineer with a specialization in crafting dynamic progressive web solutions from the ground up. Fueled by an unwavering curiosity for emerging technologies and a penchant for pushing boundaries, I consistently bring forth imaginative web encounters. Guiding budding developers, disseminating wisdom, and consistently surpassing client anticipations are also facets of my journey that I relish.

### Skills

I'm skilled in a wide tech spectrum: Laravel, Vue, Angular, Node, Adonis, Express, MySQL, MongoDB, PostgreSQL, ReactJS, Ionic. My expertise spans elegant web solutions, mentoring, and excelling in both front-end and back-end. Fueled by innovation, I craft top-notch user experiences across platforms.

### Education

Bachelor in Science in Computer Science and Engineering (CSE)

Leading University

2015 - 2018
